

Self –Employment of a differently abled youth with Locomotor Disability.

Mr.Kartikeswar Moharana, a 35 years old youth, hails from Village Kuha of Block Jatni. He was affected by polio from his birth. He was leading a miserable life owing to his deformities. With the intervention of Vikash through its CBR project, Mr.Moharana was counseled by our Multi-Rehab-Workers (MRWs) and linked to Bhinnakshyam Sangathan (Local association of disabled persons promoted by Vikash) and SHG for PWDs. With the combined effort of MRWs, Sangathan and SHG he has been able to lead an independent life. Categorically he has received the following assistance:

- Disability Certificate
- Tri-cycle
- Bus Pass
- Established his own bettle shop with credit support from the SHG

Now the success of Mr.Moharana is an example of self-reliance being followed by other persons.
